

Health Objective Mapping from Healthy People 2010 to Healthy People 2020

Updated 11/8/2012

HP 2010 Objective	HP 2020 Objective
1- 1 Persons with health insurance	AHS-1 Persons with health insurance
1- 3† Counseling about health behaviors	No longer applicable
1- 4 Source of ongoing care	AHS-5 Source of ongoing care
1- 5 Usual primary care provider	AHS-3 Usual primary care provider
1- 6 Difficulty or delays in obtaining needed health care	AHS-6 Difficulty or delay in obtaining needed health care
1- 8† Racial and ethnic representation in health professions	No longer applicable
1-10† Delay or difficulty in getting emergency care	No longer applicable
1-11 Emergency Medical Services	AHS-8 Emergency Medical Services
1-13† Trauma Care Systems	No longer applicable
1-14† Special needs of children	No longer applicable
2- 9 Osteoporosis	AOCBC-10 Osteoporosis
3- 1 Overall Cancer deaths	C-1 Overall Cancer deaths
3- 3 Breast cancer deaths	C-3 Breast cancer deaths
3- 5 Colorectal cancer deaths	C-5 Colorectal cancer deaths
3- 7 Prostate cancer deaths	C-7 Prostate cancer deaths
3- 8 Melanoma cancer deaths	C-8 Melanoma cancer deaths
5- 1 Diabetes education	D-14 Diabetes education
5- 5 Diabetes	D-3 Reduce Diabetes death rate
5-12 Annual glycosylated hemoglobin measurement	D-11 Glycosylated hemoglobin measurement
5-13 Annual dilated eye examinations	D-10 Annual dilated eye exams
5-14 Annual foot examinations	D-9 Annual foot exams
7- 2 School health education	ECBP-2 School health education
7- 5 Worksite health promotion programs	ECBP-8 Worksite health promotion programs
7- 6 Participation in employer-sponsored health promotion activities	ECBP-9 Participation in employer-sponsored health promotion
7-10 Community health promotion programs	ECBP-10 Community-based primary prevention services
7-11 Culturally appropriate community health promotion programs	ECBP-11 Culturally appropriate community health programs
7-12† Older adult participation in community health promotion activities	No longer applicable
8- 6 Waterborne diseases	EH-5 Waterborne diseases
8-10 Fish contamination	FS-2 Outbreak-associated infections associated with food commodity groups
8-11 Blood lead	EH-8 Blood lead
8-12 Hazardous sites	EH-9 Hazardous sites
8-20 School policies to protect against environmental hazards	EH-16 School policies to protect against environmental hazards
8-23 Substandard housing	EH-19 Housing units with physical problems
8-26 Information systems	EH-21 Information systems for environmental health
8-27 Monitoring of environmental diseases or conditions	EH-22 Monitoring diseases caused by exposure to environmental hazards
9- 1 Intended Pregnancy	FP-1 Intended pregnancy
10- 1 Foodborne infections	FS-1 Foodborne infections
11- 2 Health literacy	HC/HIT-1 Health literacy
12- 1 Coronary Heart Disease	HDS-2 Coronary heart disease deaths

12- 2 Knowledge of symptoms of heart attack and importance of calling 911	HDS-16 Knowledge of symptoms of heart attack and importance of calling 911
12- 7 Stroke	HDS-3 Stroke deaths
12- 8 Knowledge of early warning symptoms of stroke	HDS-17 Knowledge of early warning symptoms of stroke
12- 9 High blood pressure	HDS-5 Hypertension
12-10 High blood pressure control	HDS-12 High blood pressure control
12-14 High blood cholesterol levels	HDS-7 High blood cholesterol levels
13- 1 HIV-AIDS	HIV-4 HIV-AIDS
14- 1 Vaccine-preventable diseases	IID-1 Vaccine-preventable diseases
14- 2 Hepatitis B in infants and young children	IID-24 Hepatitis B in infants and young children
14- 3 Hepatitis B in adults and high risk groups	IID-25 Hepatitis B in adults and high risk groups
14- 6 Hepatitis A	IID-23 Hepatitis A
14- 7 Meningococcal disease	IID-3 Meningococcal disease
14- 8† Lyme disease	No longer applicable
14- 9 Hepatitis C	IID-26 Hepatitis C
14-11 Tuberculosis	IID-29 Tuberculosis
14-20† Hospital-acquired infections	No longer applicable (but covered in the new topic area HAI)
14-29* Influenza and pneumococcal vaccination of high-risk adults	IID-12 Influenza vaccinations IID-13 Pneumococcal vaccinations
15- 8 Deaths from Poisonings	IVP-9 Poisoning deaths
15-12* Emergency department visits	IVP-1 Fatal and non-fatal injuries
15-13 Unintentional injury deaths	IVP-11 Unintentional injury deaths
15-15 Motor vehicle deaths	IVP-13 Motor vehicle deaths
15-16 Pedestrian deaths	IVP-18 Pedestrian deaths
15-19 Safety belts	IVP-15 Safety belt
15-20 Child restraints	IVP-16 Child restraints
15-27 Falls	IVP-23 Falls
15-29 Drownings	IVP-25 Drownings
15-32 Homicides	IVP-29 Homicides
15-33* Maltreatment of children	IVP-38 Nonfatal child maltreatment IVP-37 Child maltreatment deaths
15-34 Physical assault by intimate partners	IVP-39 Intimate partner violence
15-35 Rape or attempted rape	IVP-40 Sexual violence
16- 6 Prenatal Care	MICH-10 Prenatal care
16- 8 Very low birth weight infants born at level III hospitals	MICH-33 Very low birth weight infants born at level III hospitals
18- 1 Suicide	MHMD-1 Suicide
18- 2 Adolescent suicide attempts	MHMD-2 Adolescent suicide attempts
19- 1 Healthy weight in adults	NWS-8 Healthy weight in adults
19- 2 Obesity in adults	NWS-9 Obesity in adults
19- 3 Overweight or obesity in children and adolescents	NSW-10 Obesity in children and adolescents
19- 5 Fruit intake	NWS-14 Fruit intake
19- 6 Vegetable intake	NWS-15 Vegetable intake
19-15† Meals and snacks at school	No longer applicable
19-16 Worksite promotion of nutrition education and weight management	NWS-7 Worksite nutrition and weight management education and counseling

20- 2 Work-related injuries	OSH-2 Nonfatal work-related injuries
21- 1 Dental caries experience	OH-1 Dental caries experience
21- 8 Dental sealants	OH-12 Dental sealants
21- 9 Community water fluoridation	OH-13 Community water fluoridation
21-10 Use of oral health care system	OH-7 Use of oral health care system
21-12 Dental services for low-income children	OH-8 Dental services for low income children and adolescents
22- 1 Physical Activity in Adults	PA-1 Leisure-time physical activity in adults
22- 2 Moderate physical activity	PA-2 Federal physical activity guidelines in adults
22- 6 Physical Activity in Children and Adolescents	PA-5 Federal physical activity guidelines in adolescents
22-13 Worksite physical activity and fitness	PA-12 Worksite physical activity
22-14 Community walking	PA-13 Active transportation - Walking
22-15 Community bicycling	PA-14 Active transportation - Bicycling
23- 2† Public health access to information and surveillance data	No longer applicable
23- 4 Data for all population groups	PHI-7 National data for population-based Healthy People objectives
23- 5† Data and Information systems	No longer applicable
23- 7 Timely release of data on objectives	PHI-9 Timely release of data on national objectives
23- 8 Competencies for public health workers	PHI-1 Core Competencies for public health professionals
23-10 Continuing education and training	PHI-2 Continuing education of public health personnel
23-11 Performance standards	PHI-14 Performance standards
23-12 Health improvement plans	PHI-15 Health Improvement plans
23-13 Comprehensive laboratory services	PHI-11 Comprehensive laboratory services
23-14 Comprehensive epidemiology services	PHI-13 Comprehensive epidemiology services
24-10 Chronic obstructive pulmonary disease (COPD)	RD-10 Chronic obstructive pulmonary disease (COPD)
25- 1 Chlamydia	STD-1 Chlamydia
25- 2 Gonorrhea	STD-6 Gonorrhea
25- 3 Primary and Secondary Syphilis	STD-7 Primary and secondary syphilis
26- 9 Substance free youth	SA-2 Substance-free adolescents
27- 1 Tobacco use by adults	TU-1 Adult tobacco use
27- 2 Tobacco use by adolescents	TU-2 Adolescent tobacco use
28-14 Hearing	ENT-VSL-4 Hearing exams

† - No longer applicable: Health Objective does not appear in Healthy People 2020. Please select a different health objective.

* - Indicates a Healthy People 2010 objective that maps to a Healthy People 2020 sub-objective, but only top level Healthy People 2020 objectives are being used in BGMIS.
